ClickClack®

Thinking up ways to help in the kitchen for over 30 years

ClickClack® is an iconic New Zealand company dedicated to producing stylish and incredibly helpful kitchenware.

We do it all — from storage for the pantry, fridge and countertop, to handy cooking containers and on-the-go solutions, even cubes designed to keep coffee and tea fresh. Not to mention our award-winning range of gadgets to help you whisk, mash, measure, slice, serve and stir and cook up a storm. If it's durable, good-looking and practical, it's ClickClack®.

www.clickclack.com

These days, ClickClack® is helping busy families across the world make life smoother, less stressful and more creative. We love helping you prepare, cook, heat, chill and store food with our multi-talented range of airtight, space-efficient and BPA-free storage solutions.

There's nothing we like more than a well organised kitchen.

Okay, let's see what's cooking...

What's cooking, good looking?

Say hello to award winning ClickClack Gadgets.
We're a range of elegant utensils designed to both
perform and stand out in any kitchen.

Measure it!

Don't keep us in the drawer, we deserve
pride of place on the bench. We're a
complete set of spoons and cups elegantly
designed with magnetic nesting.
You'll find we always measure up.

Peel it!

Whoever thought peeling was a chore never
met me. I have swivel-action blades for fast
and precise peeling, and am designed to handle
even the largest vegetables. Plus, check out
my oh-so-comfy handle.

Mash it!

Now you can mash it with true style. I'm a
stunning utensil with a comfortable handle,
durable stainless steel head and my unique
design allows you to reach all corners of the pot.

Grab it, turn it, scoop it, serve it!

We're your essential and elegant kitchen utensils
with sturdy nylon heads heat resistant up to
200°C/390°F. Our comfortable ergonomic
handles make us a pleasure to use.

Flip it!

I'll help you fall in love with cooking again!
Handy and refined, I have a comfortable ergonomic
handle and sturdy stainless steel head coated in
silicone that's heat resistant up to 250°C/480°F.
